5 CSR 80-800.380 Required Assessments for Professional Education Certification in Missouri

(1) Each applicant seeking a Missouri certificate of license to teach will successfully complete an exit assessment to measure the applicant's competency in subject matter, pedagogical knowledge, or both, prior to being granted the certificate.

(A) The State Board of Education (board) has selected the Praxis II: Content Knowledge or Specialty Area Tests and the Principles of Learning and Teaching Tests developed by the Educational Testing Service (ETS) as the exit assessments for certificates of license to teach. The Principles of Learning and Teaching Test has been selected only for the area(s) of certification for which no content knowledge or specialty area test has been designated, except in the areas of special education (see Appendix A, which is incorporated by reference and made a part of this rule). Qualifying scores are established by the board and published by ETS for each test designated for an area of certification.

1. Applicants seeking initial certificates of license to teach must take the content knowledge or specialty area test in their major area of preparation or the appropriate principles of learning and teaching test if no content knowledge or specialty area test is designated, except in the areas of special education where the special education test is required for initial certification.

2. Applicants for a Missouri certificate of license to teach, having a valid certificate of license to teach in the same or a closely aligned area of certification from another state, having taken that state's required subject or specialty area assessment(s) for that certification and achieved that state's passing score(s), and having at least two years of full-time professional experience in education in the area for which they are seeking Missouri certification, shall not

be required to take the designated assessment(s) in Missouri in order to receive the Missouri certificate. If no subject or specialty area assessment is required in the state from which the applicant holds a valid certificate of license to teach, the applicant shall successfully complete the assessment(s) designated by the board in order to receive the Missouri certificate of license to teach.

3. Applicants seeking additional certificates of license to teach in other content areas:

A. May take the appropriate content knowledge or specialty area test(s) for certification, except in areas of special education other than mild/moderate cross-categorical disabilities; or

B. Must meet the applicable certification standards as set forth in the *Compendium of Missouri Certification Requirements*, which is incorporated by reference and made a part of this rule.

4. Beginning September 1, 2004, applicants for a Missouri certificate of license to teach will take the designated Praxis II content knowledge or specialty area test for each area of certification and achieve a qualifying score on each respective test.

(B) In addition to the previously described assessments, the board will accept successful completion of the National Board for Professional Teaching Standards (NBPTS) assessment as meeting the exit assessment requirement for Missouri. Therefore, applicants seeking a Missouri certificate of license to teach having certification granted by the NBPTS are not required to take the designated Missouri exit assessment in the content area for which they hold NBPTS certification.

(C) The board has selected the School Leaders Licensure Assessment (SLLA) developed by ETS to assess the attainment of competencies required for the building-level administrator certificate of license to teach (see Appendix A, which is incorporated by reference and made a part of this rule). A minimum qualifying score for this assessment is established by the board.

Those sections with changes are reprinted below. This proposed amendment becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: One comment was received concerning this proposed amendment.

COMMENT: The comment concerned the definition of escort services. The comment made reference to the fact that the division has included escort services within assisted transportation and would no longer require a separate definition. It further stated that the definition of assisted transportation did not appear within this rule.

RESPONSE AND EXPLANATION OF CHANGE: The division agrees with the comment and will add the definition of assisted transportation with a reference to escort. The definition of escort will be deleted.

ORDER OF RULEMAKING

By the authority vested in the director of the Division of Aging under section 660.050, RSMo Supp. 1999, the director hereby amends a rule as follows:

13 CSR 15-7.060 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on June 15, 2000 (25 MoReg 1640–1641). Based upon comments received and a review by the division, several sections of this proposed amendment will have modifications. Those modifications are reprinted below. This amendment becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: There was one comment received concerning two subsections.

COMMENT: One comment concerned the wording of a new sentence in section (15)(E). The commenter proposed changing the words “delivered to the last recipient” to “at the end of delivery.” This would allow temperatures to be recorded by staff through a test meal returned to the center— thus avoiding (1) exposure of the last recipient’s food for testing; (2) training of all volunteers to appropriately test/record; (3) purchasing additional thermometers; and (4) sanitizing supplies for use in the field to avoid cross-contamination.

RESPONSE AND EXPLANATION OF CHANGE: The division agrees and will make the appropriate modification.

COMMENT: One comment concerned the wording of section (15)(F). The commenter proposed changing the words “record time home-delivered meal route was started” to “record time at end of preparation.” This change would more appropriately document hot food delivery time.

RESPONSE AND EXPLANATION OF CHANGE: The division agrees and will make the appropriate modifications.

13 CSR 15-7.060 Nutrition Service Standards

(6) Equipment Requirements.

(A) Whether the senior center is catered or has an on-site food preparation kitchen, adequate equipment shall be available to keep refrigerated foods at or below forty-one degrees Fahrenheit

(41°F), heated foods above one hundred forty degrees Fahrenheit (140°F) and frozen foods at or below zero degrees Fahrenheit (0°F).

(15) Home-delivered meals service providers shall—

(C) Assess and document an individual’s eligibility to receive home-delivered meals prior to initiation of the service and reassess the need for services at least annually. A shorter eligibility period may be appropriate in certain circumstances, such as persons with short-term needs after illness or surgery.

1. When referrals are received from the division, the division’s assessment and reassessment of the service recipient will be sufficient documentation of eligibility. The service recipient’s assessment card shall document that referral was received from the division and an assessment made by the division established eligibility for the home-delivered meal. The senior center shall then complete the necessary forms for client registration as defined by the area agency.

2. In emergency situations, home-delivered meals may be delivered for a maximum of five (5) days prior to the initial assessment of eligibility;

(E) Use insulated carriers to assure that foods delivered to home-delivered meal recipients are at the proper temperature, over one hundred forty degrees Fahrenheit (140°F) for hot food and at or below forty-one degrees Fahrenheit (41°F) for cold food. Check and record at least quarterly, the temperature of hot and cold food items at the end of delivery on each home-delivered meal route. All equipment used in transporting foods shall have smooth cleanable surfaces, be cleaned and sanitized daily or be disposable;

(F) Deliver hot foods to the service recipient within three and one-half (3 1/2) hours following end preparation time. Record time meal preparation ended and time last meal was delivered at least quarterly for each route;

Title 13—DEPARTMENT OF SOCIAL SERVICES

Division 15—Division of Aging Chapter 10—General Licensure Requirements

ORDER OF RULEMAKING

By the authority vested in the Division of Aging under section 198.534, RSMo Supp. 1999, the division adopts a rule as follows:

13 CSR 15-10.070 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on May 15, 2000 (25 MoReg 1227–1232). Those sections with changes are reprinted here. This proposed rule becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The division received two (2) comments from two (2) organizations during the thirty day comment period.

COMMENT: In section (9)(F) of the proposed rule, which relates to the MDS assessment, we note that the rule appears to contain more prescriptive requirements than what was contained in SB 326. SB 326 requires “each participating facility to complete a minimum data set form for each resident occupying a pilot bed.” Section (9)(F) goes beyond this requirement to indicate at what specific intervals the assessment will be completed. While not inappropriate for nursing facility settings, the requirements are prohibitive for residential care facilities. We encourage the Division of Aging to provide flexibility with respect to the MDS tool that demonstration program participants will be required to use. We believe the intent of the law and appropriate care for the

residents can be accomplished without completing the entire MDS assessment at the intervals indicated.

RESPONSE AND EXPLANATION OF CHANGE: All federally certified long-term care facilities must utilize the Minimum Data Set (MDS) assessment process. The legislation which sets forth the Alzheimer's Demonstration Project requires that a minimum data set form be completed for each resident occupying a demonstration project bed. As a result, the division decided to require all facilities selected to participate in the Alzheimer's Demonstration Project to use the existing MDS process since certified facilities are already required to use the MDS process designated by the Health Care Financing Administration (HCFA). The purpose is to have all demonstration program participants conduct a uniform resident assessment process, at least initially in order to facilitate comparisons. Accordingly, it is important to note that the demonstration project allows for facilities to request exceptions to this rule when appropriate, and also for facilities to implement innovative ideas and programs relating to the treatment of persons with Alzheimer's disease or Alzheimer's related dementia. The division does agree with part of this comment regarding the completion of the entire MDS assessment every ninety (90) days. The division is making a change to subsection (9)(F) stating that the MDS will be completed within fourteen (14) days of admission and an MDS quarterly review assessment will be completed every ninety (90) days thereafter.

COMMENT: The Private Entity Cost portion of the Fiscal Note does raise some concerns. The only costs that are disclosed are the licensing fees for developing these facilities. In light of the substantial overbedding which exists currently in the State of Missouri, especially with skilled and intermediate care beds, the Private Entity Cost should include the amount of lost revenue to facilities currently providing services to Alzheimer's patients, that will experience that patient population being diverted to the demonstration project facilities. In that regard, the statement in paragraph 5 on page 1232 is not accurate. The creation of these projects will result in a "taking of private property" as that phrase is used in the provisions of section 536.017, RSMo Supp. 1999. We therefore believe that for this rule to be adopted without that analysis having been completed, including the lost revenue to existing facilities, it may be subject to the invalidity provisions of that aforementioned statutory section.

RESPONSE: Section 536.017, RSMo Supp. 1999, provides that a takings analysis is not necessary where the rule or regulation being promulgated substantially codifies existing federal or state law. Proposed rule 13 CSR 15-10.070 is substantially a codification of Section 198.086, RSMo Supp. 1999, which mandated the Division of Aging to develop and implement an Alzheimer's Demonstration Project. The proposed rule merely adds a mechanism for interested participants to submit their letters of intent and outlines the process by which the selection of participants in the project would be made. Any fiscal impact resulting from this demonstration project is brought about by Section 198.086 in which the General Assembly of the state of Missouri mandated that an Alzheimer Demonstration Project be developed and implemented by the Division of Aging. The fiscal impact relating to the legislation enacted by the General Assembly was taken into account during the legislative process leading to the passage of SB 326 which, in pertinent part, added a new Section 198.086 to the Revised Statutes of Missouri mandating an Alzheimer's Demonstration Project be conducted. Persons or entities affected by the proposed legislation had the opportunity to express their concerns through the legislative hearing process. In that regard, the fiscal note accompanying the rulemaking is substantially the same as that noted in the legislative fiscal note. Accordingly, it is believed the agency's proposed rulemaking complies with Section 536.017 and that the contention that such rulemaking is subject to the invalidity provisions of Section 536.017 is without merit. Even if a tak-

ings analysis were required, it is believed that the impact of this proposed rule does not constitute a taking of private property as defined in federal and state law inasmuch as any fiscal impact is the result of the enactment of Section 198.086 and not caused by the rule which merely codifies and implements the statutory mandate. Furthermore, neither the statute nor the rule has the effect of preventing an economically viable use of the property in question so as to constitute a "taking." See *United States v. Riverside Bayview Homes, Inc.*, 474 U.S. 121 (1985) and *Lucas v. South Carolina Coastal Council*, 505 U.S. 1003 (1992) for federal case law in this area; see also *D & H Prescription Drug Co., Inc. v. City of Columbia*, 977 S.W.2d 515 (Mo. App. 1998) for a Missouri case where the court found that governmental action which caused a diminution in value of private property (as opposed to action which resulted in a complete taking of such property) did not present an actionable claim for inverse condemnation. Finally, it is important to note that participation in this demonstration project is voluntary.

13 CSR 15-10.070 Alzheimer's Demonstration Projects

(9) All facilities selected to participate in the demonstration projects shall demonstrate the ability to comply with the following minimum requirements set forth in section 198.086, RSMo Supp. 1999:

(F) A Minimum Data Set (MDS) assessment shall be completed for any resident who occupies a bed designated for demonstration project participants. The MDS must be completed within fourteen (14) days of admission and an MDS quarterly review assessment must be completed every ninety (90) days thereafter. The MDS must also be completed whenever a significant change in condition occurs. For the purposes of this rule, "significant change" means a change in medical condition or in cognitive or psychosocial functioning which requires a change or modification in services or treatments provided in order to maintain the individual at the highest practicable level of functioning.

Title 20—DEPARTMENT OF INSURANCE Division 500—Property and Casualty Chapter 6—Workers' Compensation and Employer's Liability

ORDER OF RULEMAKING

By the authority vested in the Department of Insurance under section 374.045, RSMo Supp. 1999, the department withdraws a proposed amendment as follows:

20 CSR 500-6.700 Procedures Associated With Workers' Compensation Managed Care Organizations is **withdrawn**.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the Missouri Register on May 1, 2000 (25 MoReg 1134-1156). This proposed amendment is withdrawn.

SUMMARY OF COMMENTS: This proposed amendment to 20 CSR 500-6.700 was a comprehensive overhaul of an existing rule on workers' compensation managed care organizations (MCO's). The proposed amendment was designed to comply with language in section 287.135, RSMo (enacted in 1993), which directed the Department of Insurance to promulgate rules regarding: 1) the certification criteria for workers' compensation MCO's; 2) the criteria under which the fees charged by an MCO would be reimbursed by an employer's workers' compensation insurer; and, 3) criteria for the coordination and integration of MCO and insurer internal operating systems. The department received numerous oral and

written comments from organizations representing insurance companies, managed care organizations, employers and employees. Generally speaking, representatives of the insurance industry strongly opposed the proposed amendment for literally dozens of reasons. Independent managed care organizations supported the proposed amendment, with some concern regarding the proposed standard for the “reasonableness” of MCO fees and regarding some of the proposed amendment’s new MCO compliance requirements. Representatives of employer groups generally supported the proposed amendment’s notion that employers should have the option of selecting an MCO, although one employer organization supported the proposed amendment only so long as it did not have the effect of increasing premium rates and another argued that the selection of an MCO was no substitute for an employer’s diligence in monitoring treatment. Employee representatives remarked that the needs of the injured employee were not taken into account in the proposed amendment, voicing concerns about issues such as the quality of care, timeliness of care, the role of case management nurses and the confidentiality of medical records.

RESPONSE: Given the strong opposition to the proposed amendment by insurers, the relatively mild and equivocal support for the proposed amendment by employers and the concerns from various quarters that the proposed amendment was focused too heavily on MCO reimbursement issues and not enough on the quality and ultimate outcomes of care, the department has decided to withdraw the proposed amendment. The department has filed a new proposed amendment to 20 CSR 500-6.700 that addresses many of the comments received by the department. The text of the new proposed amendment is published in this issue of the *Missouri Register*.

This section may contain notice of hearings, correction notices, public information notices, rule action notices, statements of actual costs and other items required to be published in the *Missouri Register* by law.
